*Psychological Abstracts*...

- reports advances appearing in journals and books that may not be read on a regular basis
- enables users to pick up main ideas at a glance by highlighting the key points in a given document
- saves research time by virtue of *PA* complete bibliographic data for all citations
- and lets users find what they need in a hurry with its reader-friendly indexes for each month and year.

\*This book-related material previously appeared separately in *PsycBOOKS*.

\*\*Summaries in *PA* will continue to be grouped by subject classification, as well as now by source: SERIAL, BOOKS, and CHAPTERS. We've retained the style which *PA* subscribers find most efficient, and integrated the strengths of the former version of *PsycBOOKS*.

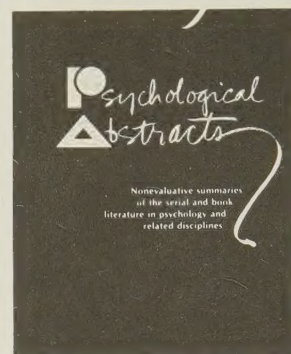

Now a single print product gives users access to chapter, book, and journal information from all areas of psychology and related disciplines.

APA's *Psychological Abstracts (PA)* brings users nearly 3,000 journal abstracts every month and NOW includes book chapter and book information\*.

Both psychologists and librarians have reported that they want the convenience of having a single source for ALL of the information available from books, book chapters, and journals. That's why chapter and book summaries are included in the monthly issues of *PA*.\*\*

*PA* gives your users an overview of research in psychology and related fields, sums up articles from over 1,300 English-language journals and over 1,500 books annually, shows everything that's new in a given specialty, and much more!

Don't miss out on psychology's richest resource on current literature! *PA* is priced at \$1,349 per year for institutions. Well worth it for over 4,000 journal and book abstracts per month!

**PsycINFO®**  
INFORMATION SERVICES IN PSYCHOLOGY

**PsycINFO**  
INFORMATION SERVICES IN PSYCHOLOGY

*PsycINFO*, a family of interrelated information services, provides access to the literature in psychology and interrelated behavioral and social sciences in a variety of ways. *PsycINFO* consists of:

**Psychological Abstracts (PA)** journal (ISSN 0033-2887). The comprehensive monthly compilation of non-evaluative summaries of the serial and book literature in psychology and related disciplines.

**Issue.** The monthly *PA* issues contain entries listed under 22 major classification categories, with some categories having subsections, as shown in the Table of Contents. Under each classification heading, the records are arranged alphabetically by first author, and are numbered consecutively each year. The volume contains approximately 47,000 records.

**Indexes.** An author, brief subject, and book title index appear in each monthly issue. An expanded and integrated annual index is published at the end of each volume.

**PsycSCAN®s: Clinical Psychology, Developmental Psychology and Applied Psychology.** Quarterly publications containing abstracts from subscriber-selected journals in the areas of clinical psychology, developmental psychology, and applied psychology, respectively.

**PsycSCAN: Applied Experimental & Engineering Psychology.** Quarterly publication containing abstracts in the area of applied experimental and engineering psychology.

**PsycSCAN: LD/MR.** A quarterly publication containing abstracts on learning disabilities, communication disorders, and mental retardation.

**PsycSCAN: Neuropsychology.** A quarterly publication covering the clinical and human cognitive experimental areas of neuropsychology.

**Psychoanalytic Abstracts.** Formerly *PsycSCAN*: Psychoanalysis. Quarterly publication containing abstracts in the area of psychoanalysis.

**PsycSCAN: Behavior Analysis & Therapy.** Drawn from the total coverage of *PsycINFO*®, this quarterly publication contains abstracts in the area of behavior analysis and therapy.

**The Thesaurus of Psychological Index Terms® 1994.** A compilation of the vocabulary used in psychology and related disciplines as generated from the files of *PA*.

**PsycINFO User Manual® 1992.** Developed for the individual researcher of the information available from *PsycINFO* services, whether through use of the printed *PA* issues and indexes or by computer-assisted search of the database.

For more information on the above products, uses, and costs write to *PsycINFO*, American Psychological Association, 750 First Street, N.E., Washington, D.C. 20002-4242.

*Psychological Abstracts* is printed on acid-free paper.

**PASAR® (PA Search and Retrieval).** Retrospective search and retrieval services available through the *PsycINFO* office.

**PsycINFO® Database.** Magnetic tapes of *PsycINFO* records to institutions for annual lease or license. Designed for use by information analysts and dissemination centers, the *PsycINFO* database is also used for direct interaction by individuals through a computer terminal in their own facilities. This service is available through several dissemination centers throughout the world.

**PsycLIT®.** A CD-ROM product containing *PsycINFO* citations and abstracts published from 1974 to present. *PsycLIT* includes summaries and citations from over 1,300 journals from 45 countries. English-language books and chapters from 1987 are included. Updated quarterly.

Printed in the U.S.A.

This Annual Subject Index, published in five volumes, consolidates more than 159,000 references to approximately 45,000 abstract records published in 12 monthly issues of *Psychological Abstracts* from January 1995 through December 1995. A companion work, the Annual Author Index, references these records by author and document title.

Index terms, selected from the *Thesaurus of Psychological Index Terms*, represent the literature covered for the periods indicated. Only terms assigned as major terms, reflecting the main focus of the article, appear in the printed subject index. (Terms assigned as minor do not appear in print but are available for online searching.) Subject matter content determines the specific terms used and, thus, not every thesaurus term will appear in every index. "See" and "See Also" references are present to direct the user to the preferred terminology or related areas of interest. Index phrases are alphabetically arranged under the appropriate index terms and represent a concise statement of the article's content or, when appropriate, identify the independent and dependent variables described in the material as well as the subject population. Style changes such as the increased use of abbreviations or the elimination of some hyphens may result in some inconsistencies and may affect the alphabetical order of phrases.
